

E & E

PHARMACEUTICALS

COMPANY PROFILE

2022

About Us

E&E Pharmaceuticals is an American trade group representing LLP companies in the pharmaceutical industry in the United States.

E&E Pharmaceuticals was established in 2016 in California/USA as the head office.

In 2017, E&E established their Jordan branch as the regional office in the Middle East.

The companies we collaborate with are well-known for producing high-quality and effective medical and cosmetic products that change lives and empower people!

In the future, we are keen to develop and expand with more brand names in different countries.

Our Mission

To provide an innovative, high quality products and services to help changing and inspiring people's lives.

Our Vision

To grow rapidly around the globe and be valued by improving the quality of lives for people and society.

Our Core Values

We are committed to operate on the basis of honesty, respect and trust with our customers, business partners and employees to build a long term, lasting relationship.

A close-up photograph of a woman's face, looking directly at the camera. Overlaid on her face is a semi-transparent, golden-brown hexagonal molecular structure, resembling a honeycomb or a chemical lattice. The background is a soft, out-of-focus laboratory setting with glassware and equipment.

Hyalogic®

which is the leading company in Hyaluronic Acid industry worldwide, it was the first to create a full line of supplements and skin care products using High Molecular Weight Hyaluronic Acid.

Its products help to hydrate joints and support hair, skin, eyes, and bones with Hyaluronic Acid, nature's hydrator.

All of Hyalogic's products contain:

- High Molecular Weight Hyaluronic Acid,
- 100% organic,
- Non- animal derived
- Examined with a five - stage process to ensure effectiveness,
- Safety and stability.

Go Medical Industries Pty Ltd

is a family owned company based in Perth, Western Australia. It was established by Dr. George O'Neil in 1986 with the aim of developing innovative products for common medical procedures.

As a trained obstetrics and gynecology physician with experience of working around the world including Australia, the United Kingdom and South Africa, he saw the need for improvement in many of the common procedures that he was carrying out.

Go Medical now specializes in the manufacture of infusion devices (Springfusor®, Balloonfusor), Patient Controlled Anaesthetics devices (PCEA, PCIA & Nasal PCA's), Intravenous Tubing (V-Set), Obstetrics (Amnicot, Vacuum Cup) and urinary catheters (ONS).

Go Medical has also worked with a number of international and Australian organizations in the development of specialized products to cater for a specific need.

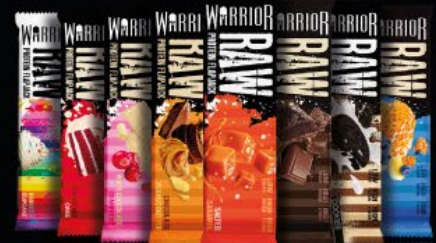

Warriors

Warrior Supplements is a global brand that was created with a single purpose in mind – a single, solitary goal. To improve the athletic performance and mental focus of those who consume them. We want to help those dedicated athletes who leave everything on the battlefield and strive with each training session....to become the best that they can be.
